(3) Every member wishing to vote shall be supplied with a ballot paper in Form V bearing the seal of the Board and the signature of the Returning Officer, and on which the names of all the contesting candidates are printed or typed in English or Kannada. (4) The elector to whom a ballot paper is issued under sub-rule (3) shall on receipt of the ballot paper proceed to the place set apart for the purpose and there place a mark (X) against the name of the candidate for whom he wishes to vote. He shall then fold up the ballot paper so as to conceal his vote and insert it into the ballot box.

(5) If owing to physical infirmity, an elector is unable to read the names of the candidates on the ballot paper or to place a mark thereon, the Returning Officer shall record the vote on the ballot paper in accordance with the wishes of the elector, fold it so as to conceal the vote and insert it into the ballot box. (2) The Returning Officer shall reject a ballot paper—

(*a*) If it bears any mark or writing by which the elector can be identified, or

(*b*) if no vote is recorded thereon, or

(*d*) if the number of votes recorded thereon is not equal to the number of votes which the elector is entitled to give, or

(*f*) if it is a spurious ballot paper:

Provided that a ballot paper shall not be rejected merely on the ground that the mark indicating the vote is indistinct or made more than once, if the intention that the vote shall be for a particular candidate clearly appears from the way the paper is marked.

(3) Before rejecting any ballot paper under this rule, the Returning Officer shall allow each candidate a reasonable opportunity to inspect the ballot paper but shall not allow him to handle it or any other ballot paper.

(4) Every ballot paper which is not rejected shall be counted as one valid vote. After the completion of the counting, the Returning Officer shall record in a statement the total number of votes polled by each candidate and announce the same.

(5) After such announcement has been made, the Returning Officer may either on his own initiative at the instance of any candidate recount the votes:

Provided that nothing herein contained shall make it obligatory on the Returning Officer to recount the same votes more than once.

When a recount of votes is made under this sub-rule, the Returning Officer shall amend the statement referred

to in sub-rule (4), to the extent necessary after such recount and announce the amendment so made by him.

(6) After the total number of votes polled by each candidate has been announced under sub-rule (4) or sub-rule (5), the Returning Officer shall declare the candidate to whom the largest number of valid votes has been given to have been duly elected.

(7) If after the counting of the votes is completed, an equality of votes is found to exist between any two or more candidates, and the addition of one vote will entitle any of those candidates to be declared elected, the Returning Officer shall forthwith decide between those candidates by olt, and proceed as if the candidate on whom the lot falls had received an additional vote. He shall thereafter declare the candidate on whom the lot falls to have been duly elected.

(iii) 'City Areas' means (1) limits of the Corporation of the City of Bangalore; (2) limits of Mysore City; (3) K.G.F. Sanitary Board area; (4) limits of the Belgaum City including Cantonment; (5) Hubli City and area and (6) Mangalore Town limits.

(iv) 'Non-City Areas' means areas not included in 'City Areas'.

(v) 'Pre-1961 scales of pay' means 1957 scales of pay sanctioned in Government Order No. FD (B) 14034-14135 BUD 119-56-3, dated 25th January 1957 and as modified subsequently, as well as, parent State's scales of pay drawn by Government servants coming from the integrated areas on States' Reorganisation.

(ii) count and record the number of papers in each parcel and the total number; and

(iii) credit to each candidate the value of the papers in this parcel.

(i) add the values credited to all the candidates under item (iii) of clause (7);

(ii) divide the total by 2; and

(iii) add 1 to the quotientignoring the remainder, if any, and the resulting number is the quota.

(b) If, at the end of the first or any subsequent count, the total value of the ballot papers credited to any candidate is equal to, or greater than, the quota or there is any one continuing candidate, that candidate shall be declared elected.

(c) If, at the end of any count, no candidate can be declared elected, the Returning Officer shall—

(i) exclude from the poll candidate who upto that stage has been credited with the lowest value;

(ii) examine all the ballot papers in his parcel and sub-parcels, arrange the unexhausted papers in sub-parcels according to the next available preferences recorded thereon for the continuing candidates, count the number of papers in each such sub-parcel and credit it to the candidate for whom such preference is recorded transfer the sub-parcel to that candidate, and make a saparate sub-parcel of all the exhausted papers;and

(iii) see whether any of the continuing candidates has, after such transfer and credit, secured the quota.

(9) At any election where more than one seat is to be filled, every valid ballot paper shall be deemed to be of the value of 100, and the quota sufficient to secure the return of a candidate at the election shall be determined as follows:

(i) add the values credited to all the candidates under item (iii) of clause (7);

(ii) divide the total by a number which exceeds by 1 by number of vacancies to be filled; and

(iii) add 1 to the quotient ignoring the remainder, if any, and the resulting number is the quota.

(10) In carrying out the provisions of clauses (11) to (15), the Returning Officer shall disregard all fractions and ignore all preferences recorded for candidates already elected or excluded from the poll.

(11) If at the end of any count or at the end of the transfer of any parcel or sub-parcel of an excluded candidate the value of ballot papers credited to a candidate is equal to, or greater than the quota, that candidate shall be declared elected.

(12) (*a*) If at the end of any count, the value of ballot papers credited to a candidate is greater than the quota, the surplus shall be transferred, in accordance with the provisions of this clause, to the continuing candidates indicated on the ballot papers of that candidate as being next in order of the elector's preference.

original votes are recorded shall have his surplus first distributed; and if the values of their original votes are equal, the Returning Officer shall decide by lot which candidate shall have his surplus first distributed.

(*d*) (i) If the surplus of any candidate to be transferred arises from original votes only, the Returning Officer shall examine all the papers in the parcel belonging to that candidate, divide the unexhausted papers into sub-parcels according to the next preferences recorded thereon and make a separate sub-parcel of the exhausted papers.

(ii) He shall ascertain the value of the papers in each sub-parcel and of all the unexhausted papers.

(iii) If the value of the unexhausted papers is equal to or less than the surplus, he shall transfer all the unexhausted papers at the value at which they were received by the candidate whose surplus is being transferred.

(iv) If the value of the unexhausted papers is greater than the surplus, he shall transfer the sub-parcels of unexhausted papers, and the value at which each paper shall be transferred shall be ascertained by dividing the surplus by the total number of unexhausted papers.

(*e*) If the surplus of any candidate to be transferred arises from transferred as well as original votes, the Returning Officer shall re-examine all the papers in the sub-parcel last transferred to the candidate, divide the unexhausted papers into sub-parcels according to the next preferences recorded thereon, and then deal with the sub-parcels in the same manner as is provided in the case of sub-parcels referred to in clause (a).

(*f*) The papers transferred to each candidate shall be added in the form of a sub-parcel to the papers already belonging to such candidate.

(*g*) All papers in the parcel or sub-parcel of an elected candidate not transferred under this rule shall be set apart as finally dealt with.

(13) (*a*) If after all surpluses have been transferred as hereinbefore provided, the number of candidates elected is less than the required number, the Returning Officer shall exclude from the poll the candidate lowest on the poll and shall distribute his unexhausted papers among the continuing candidates according to the next preferences recorded thereon; and any exhausted papers shall be set apart as finally dealt with.

(*b*) The papers containing original votes of an excluded candidate shall first be transferred, the transfer value of each paper being one hundred.

(*c*) The papers containing transferred votes of an excluded candidate shall then be transferred in the order of the transfers in which, and at the value at which, he obtained them.

(*d*) Each of such transfers shall be deemed to be a separate transfer but not a separate count.

(*e*) If, as the result of the transfer of papers, the value of votes obtained by a candidate is equal to or greater than the quota, the count then proceeding shall be completed but no further papers shall be transferred to him.

(*f*) The process directed by this rule shall be repeated on the successive exclusions one after another of the candidates lowest on the poll until such vacancy is filled either by the election of a candidate with the quota or as hereinafter provided.

(*g*) If at any time it becomes necessary to exclude a candidate and two or more candidates have the same value of votes and are the lowest on the poll, regard shall be had to the original votes of each candidate and the candidate for whom fewest original votes are recorded shall be excluded; and if the values of their original

votes are equal the candidate with the smallest value at the earliest count at which these candidates had unequal values shall be excluded.

(*h*) If two or more candidates are lowest on the poll and each has the same value of votes at all counts the returning officer shall decide by lot which candidate shall be excluded.

(14) (*a*) When at the end of any count the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(*b*) When at the end of any count only one vacancy remains unfilled and the value of the papers of some one candidate exceeds the total value of the papers of all the other continuing candidates together with any surplus not transferred, that candidate shall be declared elected.

(*c*) When at the end of any count only one vacancy remains unfilled and there are only two continuing candidates and each of them has the same value of votes and no surplus remains capable of transfer, the returning officer shall decide by lot which of them shall be excluded; and after excluding him in the manner aforesaid, declare the other candidate to be elected.

(15) (*a*) Any candidate or, in his absence, his election agent or counting agent may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the returning officer to re-examine and re-count the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the returning officer shall forthwith re-examine and re-count the same accordingly.

(*b*) The returning officer may in his discretion re-count the votes either once or more than once in any case in which he is not satisfied as to the accuracy of any previous count:

SCHEDULE.

[*See* Statute 85 (16)]

Illustration of the procedure as to the counting of votes at, and the declaration of the result of, an election conducted on the system of the single transferable vote.

Assume that there are seven members to be elected, sixteen candidates, and one hundred and forty electors.

The valid ballot papers are arranged in separate parcels according to the first preference recorded for each candidate, and the papers in each parcel counted.

Let it be assumed that the result is as follows:—

A	...	...	12
B	...	...	8
C	...	...	6
D	...	...	9
E	...	...	10
F	...	...	7
G	...	...	4
H	...	...	19
I	...	...	13
J	...	...	5
K	...	...	14
L	...	...	8
M	...	...	10
N	...	...	6
O	...	...	4
P	...	...	5
		Total ...	140

Each vailid ballot paper is deemed to be of the vaule of one hundred and the values of votes obtained by the respective candidates are as shown the in the first column of the result sheet.

The values of all the papers are added together and the total 14,000 is devided by eight (*i. e.*, the number which exceeds by one of the number of vacancies to be filled) and 1,751 (*i. e.*, the quotient 1,750 increased by one) is the number sufficient to secure the return of a member and is called the quota.

The operation may be shown thus.—

$$\text{Quota} = \frac{14{,}000}{8} + 1 = 1{,}750 + 1 = 1{,}751.$$

The candidate H, the value of whose votes exceeds the quota, is declared elected.

As the value of the papers in H's parcel exceeds the quota, his surplus must be transferred. His surplus is 149, *i. e.*, 1,900 less 1,751.

The surplus arises from original votes, and therefore, the whole of H's papers are divided into sub-parcels according to the next preferences recorded thereon a separate parcel of the exhausted papers being also made. Let it be assumed that the result is as follows :—

B is marked as next available preference on	...	7	Papers
D is marked as next available preference on	...	4	,,
E is marked as next available preference on	...	4	,,
F is marked as next available preference on	..	3	,,
Total of unexhausted papers	...	18	
Number of exhausted papers	...	1	
Total of papers	...	19	

The value of the papers in the sub-parcels are as follows :—

B	...	...	... 700
D	...	...	... 400
E	...	...	... 400
F	...	...	... 300
Total value of unexhausted papers			... 1,800
Value of exhausted papers			... 100
Total Value			... 1,900

The value of the unexhausted papers is 1,800 and is greater than the surplus. This surplus, is, therefore, transferred as follows :—

All the unexhausted papers are transferred, but at a reduced value, which is ascertained by dividing the surplus by the number of unexhausted papers.

The reduced value of all the papers, when added together, with the addition of any value lost as the result of the neglect of fractions, equals the surplus. In this case the new value of each paper transferred is

$$\frac{149 \text{ (the surplus)}}{18 \text{ (the number of unexhausted papers)}}$$

the residue of the value of each paper (100—8 = 92), being required by H for the purpose of constituting his quota, *i. e.*, one exhausted paper value (100) plus the value (1,656) of 18 unexhausted papers.

These values of the sub-parcels transferred are :

B—56 (*i. e.*, seven papers at the value of 8);
D—32 (*i. e.*, four papers at the value of 8);
E—32 (*i. e.*, four papers at the value of 8);
F—24 (*i. e.*, three papers at the value of 8);

These operations can be shown on a transfer sheet as follows :—

Transfer Sheet

Value of surplus (H's) to be transferred	... 149
Number of papers in H's parcel	... 19
Value of each paper in parcel	... 100
Number of unexhausted papers	... 18
Value of unexhausted papers	... 1,800

New value of each paper transferred =

$$\frac{\text{Surplus}}{\text{number of unexhausted papers}} = \frac{149}{18} = 8$$

Names of Candidates marked as the next available preference	Numbers of papers to be transferred	Value of sub-parcel to be transferred
B	7	56
D	4	32
E	4	32
F	3	24
Total ...	18	144
Number of exhausted papers	1	...
Loss of value owing to neglect of fractions	...	5
Total ...	19	149

The values of the sub-parcels are added to the values of the votes already credited to the candidates, B, D, E and F. This operation is shown on the result sheet.

There being no further surplus, the candidate lowest on the poll has now to be excluded. G and O both have 400.

The Returning Officer casts lots and G is chosen to be excluded.

Being original votes, G's papers are transferred at the value of 100 each. A who was marked as next preference on two papers receives 200, while I; and E were each next preference on one paper and receiving 100 each. O now being lowest is next excluded and his 400 is similarly transferred to I, B and K, I receiving 200 and B and K 100 each.

This leaves J and P lowest with 500 each and J is chosen by lot for exclusion first. His papers are transferred at the value of 100 each to A, B, D and I, the three first named receiving 100 each, and I who had the next preference on two papers receiving 200. P is then excluded and his papers are transferred to E, L, and K, the two first named receiving 100 each, and K, who had the next preference on three papers, receiving 300.

K now exceeds the quota and is declared elected.

Prior to further exclusion, K's surplus of 49 has to be distributed.

The sub-parcel last transferred to K consisted of 3 votes transferred at the value of 100 each. This sub-parcel is examined; there are no exhausted papers and B, F and I are each next preference on one paper and one paper is transferred to each of them at a reduced value determined by dividing the surplus (49) by the number of unexhausted papers (3). B, F and I accordingly receive 16 each.

The process of exclusion is now proceeded with.

C and N have 600 each, and C is chosen by lot for exclusion first. He has 6 original votes; B, D and E are each next preference on two papers, and each receives 200. N is then excluded; A is next preference on 3 of his papers, and receives 300; F, I and L are each next preference on one paper and receive 100 each.

This brings A and I above the quota and they are declared elected. Their surplus have now to be distributed and I's surplus which is the larger, 65, is dealt with first.

The last sub-parcel transferred to I consisted of one paper transferred at the value of 100, D is next preference on this paper, and receives the whole surplus of 65.

A's surplus of 49 is then dealt with. The last sub-parcel transferred to him consisted of 3 papers transferred at the value of 100 each. B was next preference on two of these papers and E on one, and the papers are transferred accordingly. The value to be transferred is 16 per paper *i.e.*, the surplus (49), divided by the number of the unexhausted (3). B accordingly receives 32 and E 16.

No other candidate having reached the quota, the process of exclusions is proceeded with, and F, who is now lowest with 840, is excluded.

His seven original votes are transferred first, B, D and E are next preference on three, two and two papers, respectively, and receive respectively 300, 200 and 200.

The transferred votes are next transferred in the order of their transfers to F. The 3 votes received at the value of eight each at the distribution of H's surplus are transferred at the same value to L who was next preference on all 3 papers. The vote valued at sixteen received by F at the distribution of K's surplus, goes at the same value to M, who was next preference on that paper. The vote transferred at the value of 100 on the exclusion of N is then transferred at the same value to D, who thus receives a total of 300.

No continuing candidate having yet reached the surplus, N, who is now lowest with 1,016 is excluded.

His ten original votes are transferred first, B and D are first preference on three papers each, and E and L on two each. B and D accordingly receive 300 each, and E and L 200 each. This brings, B, D and E above the quota, and they are declared elected. The requisite number of candidates having now been elected, the election is at an end, and it is unnecessary to..... ...proceed to the transfer of M's transferred votes.

Full details are shown in the result sheet.
